Concerning: Legal reports

Legitimate user,

In my capacity as a Lawyer of the group of companies, owners of this Crowdfunding platform, I can clarify that I asked my European colleagues in Spain and France to study the rules on which this platform is founded also as "Community Collect", make a survey about how users make use of the platform and present potential recommendations.

Because of bar regulations it isn't possible for me and my colleagues to disclose their complete legal reports, but I can assure that, definitely after the platform was adapted due to the recommendations of my colleagues and developed further to "Community Collect", my colleagues are of the opinion that this platform meets with the directly applicable rules, unwritten rules and jurisdiction, so in their opinion the platform and more specific the Community system doesn't represent a pyramidal structure.

So far.

Mr Johan L. Vissers
Attorney at Law
